

2017 Hurricane Season HQ EOC Weekend CONOPS: October 14-15, 2017

The HQ EOC will operate remotely through the designated After-Hours Watch Officer and a core team of OEM Managers in reach-back status for the weekend of October 14 – October 15. The NRCC ESF-10 Desk will remain staffed during daytime hours. A short list of EPA personnel will be available to ramp up EOC operations if needed over the weekend via notification by the EOC Manager. As always, the EOC will maintain its 24/7 Watch Officer capabilities over the weekend in addition to support from the EOC Manager, NRCC ESF-10 Desk, and select OEM Managers and reach-back technical support. Communications have been established with Region 2. Regions 4 and 6 issued their final reports on Hurricanes Irma and Harvey on October 13, and activity in those Regions has wound down to an extent that activity over the weekend is expected to be minimal. Following is the anticipated daily battle rhythm and anticipated actions. The EOC Manager will maintain and execute the CONOPS with the AHWO under the leadership of the PROD Director and Deputy OEM Director.

Daily Battle Rhythm [times are approximate based on availability of information]

- 0800 – ESF-10 Desk Rep will forward FEMA Senior Leadership Briefing to the AHWO who will forward to OLEM Management Report and PCC distro lists.

Additional Anticipated Actions

- As needed, the AHWO & ESF-10 Rep will notify the EOC Manager of any calls with the impacted Regions or FEMA. The EOC Manager will further distribute call information as needed. The AHWO and ESF-10 Rep will provide coverage of calls as needed.
- AHWO has updated fuel waiver contacts SOP for the weekend should there be a need to contact the Clean Air Act Emergency Fuel Waiver Team.
- OPA will forward any relevant public affairs bullets to the AHWO and EOC Manager.
- The EOC Manager will be on standby to issue an EOC notification to select staff to ramp-up EOC operations.
- Agency Senior Leadership to be notified via separate distro on any significant developments impacting Agency resources.
